## WORKING WOMEN, WHAT THEY SHOULD KNOW

**MRS. SADIE ABBOTT**  
Women for the most part spend their lives at home, and it is these women who are willing and ambitious that their homes shall be kept neat and pretty, their children well dressed and tidy, who do their own cooking, sweeping, dusting and often washing, ironing and sewing for the entire family, who call for our sympathy.

**MRS. PREE MKITTRICK**  
Mrs. Pree McKittrick, of La Farge, Wis., writes:  
"For six years I suffered from female weakness. I was so irregular that I would go from my regular periods to six months, so I thought I would give Lydia E. Pinkham's Vegetable Compound a trial.  
"Now I am once more well and can do my work without a pain. Any one who wishes, can write to me and I will answer all letters gladly."

Women should remember that Lydia E. Pinkham's Vegetable Compound holds the record for the greatest number of actual cures of female ills. Every suffering woman in the United States is asked to accept the following invitation. It is free, will bring you health and may save your life.

**Mrs. Pinkham's Invitation to Women.**  
Women suffering from any form of female weakness are invited to promptly communicate with Mrs. Pinkham, at Lynn, Mass. From the symptoms given, the trouble may be located and the quickest and surest way of recovery advised. Out of her vast volume of experience in treating female ills Mrs. Pinkham probably has the very knowledge that will help your case. Her advice is free and always helpful.

The greatest cause of worry on ironing day can be removed by using Defiance Starch, which will not stick to the iron. Sold everywhere, 16 oz. for 10c.

**Woe of the Fat Man.**  
A fat man in a country town has a lot of trouble that a thin one escapes. He not only has to send out of town for his clothes, but he is always suspected of drinking too much.—Topeka Capital.

Text Somewhat Apropos.  
The Rev. J. B. Hamill, the eloquent preacher of the Hanson Place Methodist Episcopal church, Brooklyn, was preaching at Sayville, L. I., from the text "Look well to your foundations." After repeating the text he leaned heavily on the pulpit desk, which gave way and plunged over the altar rail, nearly hitting the laymen in the front seat and scattering the Bible and the preacher's notes among the holders of the pews. The aged preacher barely escaped a tumble over the altar with the heavy desk.

The extraordinary popularity of fine white goods this summer makes the choice of Starch a matter of great importance. Defiance Starch, being free from all injurious chemicals, is the only one which is safe to use on fine fabrics. Its great strength as a stiffener makes half the usual quantity of Starch necessary, with the result of perfect finish, equal to that when the goods were new.

**Prizes for Tanned Faces.**  
With the object of encouraging the pupils of the Farnham grammar school to spend their recent holiday in the open air as much as possible, the Rev. S. Priestley, the head-master, offered a prize to the boy who returned to school with the brownest face. On the pupils reassembling for the summer term 12 were picked out as being the most tanned, and it was announced that the judges had awarded the prize to Foster, the captain of the school. It is understood that Foster declines to divulge to the other boys the secret of his preparation, if any.—London Globe.

**POULTRY PRESSES**  
AN UNHEATED WAX-PRESS.  
How to Construct Such a Press Entirely of Wood.

The drawings shown herewith make the construction of my wax-press plain writes a correspondent of Gleanings in Bee Culture. To begin rendering wax, first put the cleated rack into the bottom of the press. Take a burlap sack that is big enough to

hold 100 pounds of bran and rip the seam in one side and the bottom. Spread this burlap sheet over the press; push it down in and see that it fits well into the corners, letting the edges hang out over the top. Now take a whole sack and put it into the press with a hoop in the top to hold it open. Now dip into your tub, full of boiling comb; take the hoop out of the sack; push it down with a stick to

make it fit on the bottom and in the corners. Fold up the mouth of the sack and the sheet over it. Put the follower on, with the blocks on top. Swing the cross-bar over and push the screw up through the hole in it. Put on the handle and turn both handles down, one at a time.

After the wax is pressed out, take off one handle; let the screw slip down even with the top of the press and un-

fold the first burlap so it hangs over edges. Now get hold of the top of the sack and pull it up some so it can cool a little. Then empty out the slumgum, put the sack back, and fill it again as before.

To boil the comb, use a four-hole stove with all the lids off. Put on a big tub containing two buckets of water, and add the comb as it boils, until the tub is nearly full. The water and free wax flow out of the press immediately, leaving only the slumgum to press.

**HELP FOWLS TO LAY.**  
The Reasons Why Green Bone Makes Eggs.  
It is not enough that a given food contain a certain per cent. of lime or certain per cent. of phosphates; it must also be decided whether these different chemicals can be assimilated by the hen. Dutton, who is indisputable authority, says: "It is well known that inorganic substances, although they afford the necessary material for vegetation, are not sufficient for the nourishment of animals, which depend for their support upon elements already combined in the organic form, by the action of the sun's rays and plant life."

That market bones produce wonderful results when fed to poultry is indisputable. The lean meat and gristle form the white of the egg and about 16 per cent. of the yolk. The marrow and other fat on the bones supply the remainder of the yolk.

**CUFFERED TORTURES.**  
Racked with Pain, Day and Night, for Years.

Wm. H. Walter, engineer, of Chatsworth, Ill., writes: "Kidney disease was lurking in my system for years. I had torturing pain in the side and back and the urine was dark and full of sediment. I was racked with pain day and night, could not sleep or eat well, and finally became crippled and bent over with rheumatism. Doan's Kidney Pills brought quick relief, and in time, cured me. Though I lost 40 pounds, I now weigh 200, more than ever before."

**GOOD IDEA FOR MATCHES.**

Double Enders Popular Among Smokers in Mexico.  
"Mexico may be behind us in some things, but she has us lashed to the wheel when it comes to making matches," said a man just in from the land of the Montezumas as he handed out a wax lucifer with a head on each end.

"I saw nothing but double ended matches while I was away, and I can tell you that they save one's record with the Recording Angel. If you dig down in your pocket and find one match the chances are that you are sure of a light, because if one end goes out the other is left. These old time matches, just revived, that splutter brilliant sparks may be all right when it comes to pleasing the baby, but the fellow who puts on the market a double ended match will find a ready demand."

**BLACK, ITCHING SPOTS ON FACE.**

Physician Called It Eczema in Worst Form. Patient Despaired of Cure—Cuticura Remedies Cured Her.

"About four years ago I was afflicted with black spots all over my face and a few covering my body, which produced a severe itching irritation, and which caused me a great deal of suffering, to such an extent that I was forced to call in two of the leading physicians of —. After a thorough examination of the dreaded complaint they announced it to be skin eczema in the worst form. Their treatment did me no good. Finally I became despondent and decided to discontinue their services. My husband purchased a single set of the Cuticura Remedies, which entirely stopped the breaking out. I continued the use of the Cuticura Remedies for six months, and after that every spot was entirely gone. I have not felt a symptom of the eczema since, which was three years ago. Mrs. Lizzie E. Sledge, 540 Jones Ave., Selma, Ala., Oct. 25, 1905."

**A Quaker Wit.**  
A fashionable woman decked with a profusion of jewelry, as a substitute, perhaps, for her scantiness of clothes, heard her complaining of the cold. Shivering in her lace bonnet and shawl, she exclaimed, "What shall I do to get warm?"  
"I really don't know," replied the Quaker solemnly, "unless thou put on another breastpin."—Sunday Magazine.

**The Web of Life.**  
Life is the daily web of character we unconsciously weave. Our thoughts, imaginations, purpose, motives, love, will, are the under threads; and the passing moment is the subtle, swiftly, ceaselessly, relentlessly, weaving those threads into a web; and that web is life.—S. D. Gordon.

Sheer white goods, in fact, any new wash goods when new, owe much of their attractiveness to the way they are laundered, this being done in a manner to enhance their textile beauty. Home laundering would be equally satisfactory if proper attention was given to starching, the first essential strength to stiffen, without thickening the goods. Try Defiance Starch and you will be pleasantly surprised at the improved appearance of your work.

**Campaign Against Rats.**  
The French admiralty is preparing a campaign against the rats which swarm in seaport towns and undoubtedly spread the infection of various devastating diseases in their passage from one country to another on board ship. It is announced that it will soon be compulsory for every vessel entering a French harbor from certain other ports to have all its rats exterminated.

Laundry work at home would be much more satisfactory if the right Starch were used. In order to get the desired stiffness, it is usually necessary to use so much starch that the beauty and fineness of the fabric is hidden behind a paste of varying thickness, which not only destroys the appearance, but also affects the wear-quality of the goods. This trouble can be entirely overcome by using Defiance Starch, as it can be applied much more thinly because of its greater strength than other makes.

**Heat on Tobacco Improves it Like Roasting**  
Improves Green Coffee. Heat Develops the Stimulating Aroma and Taste found in Schnapps Tobacco and Coffee

Three ways are used by farmers for curing and preparing their tobacco for the market; namely sun cured, air cured and flue cured. The old and cheap way is called air cured; the later discovery and improved way is called flue cured.

In flue curing the tobacco is taken from the fields and racked in barns especially built to retain heat and there subjected to a continuous high temperature, produced by the direct heat of flame heated flues, which brings out in the tobacco that stimulating taste and aroma that expert roasting develops in green coffee. These similar processes give to both tobacco and coffee the cheering and stimulating quality that popularizes their use.

The quality of tobacco depends much on the curing process and the
